Lacoma-T
OLOPAT OD
Lacoma

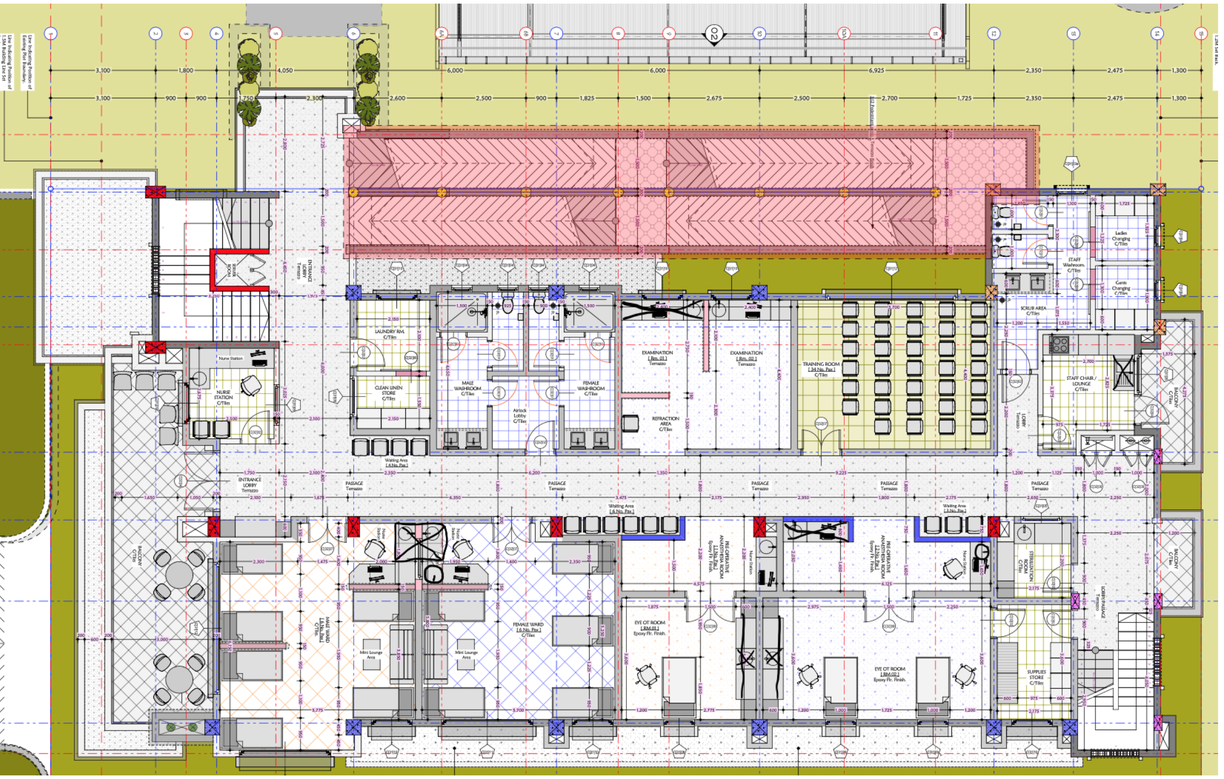

What can improve?

- Expand the Eye Department
- Improve pre- and postoperative refraction
- Improve visual outcome
- Include 6 weeks visit in cataract payment
- Increase the cataract surgical rate to 2000
- Start phaco surgery for younger patients and less hard cataracts
- Improve research /training facilities

Plans 2024 - 2029

- Bigger and Better Eye Department!
- Stand alone clinic
- SICS and phaco
- 2000 cataracts a year
- Good uncorrected post-op vision
- Training facility (Ke / NL)
- Research

How?

- Phaco training for Cataract Surgeon Mike Toroitich by Visiting Ophthalmologists
- Frequent Outreach Programs (free consultation)
- Fundraising through Blessed Sun Foundation (building) and Rotary International (equipment and training)
- 5- year commitment Rotary Clubs of Kericho, Huizen Gooimeer and the Litein Hospital
- Training of ophthalmic personnel

Waarom Phaco

- Omdat het heel leuk is (kennis over te dragen en van elkaar te leren)
- Resultaat post-op (pt < 60 en met minder hard cataract)
- Met Oertli niet duur (€250)
- Geen vervanging SICS
- OCO mogen phaco doen in Kenia, opleiding is enthousiast!
